INCREASE YOUR PROPOSAL WIN RATE BY OVER 30%... AND DO IT BY LUNCH TIME

It's frustrating when your project proposal gets passed on, isn't it? Rejection costs your company time, money, and not to mention morale. Each time you're left wondering – *What did us in? Was it our approach? Was it our price quote?* Unfortunately that mystery seldom gets solved.

What if you could be given the tools to confidently craft proposals that are persuasive, engaging and priced for maximum return?

Mindwalk Business Coaching has been specializing in helping their clients create more persuasive project proposals since 1989. With our *Pump Up Your Proposals* coaching service we can now help you too... and in record time.

- *Pump Up Your Proposals* is a LIVE coaching presentation that comes to your location for a half day event that is both informative and unforgettable. That means no travel time or expenses and the concentrated presentation means no fluff. Best of all you and your team are back at your desks ready to implement our tools and tips that same day.
- Included in the presentation is Mindwalk's *Proposal Review & Analysis Program*. We examine your past proposals and identify their weaknesses. You will understand the hidden pitfalls that doomed your previous efforts and learn how to avoid them in the future.
- Mindwalk will work with you to create a proposal template that will guide you in creating sharper, more compelling presentations. You will work from a tailor-made, yet universally effective checklist, that has benefitted thousands of our clients and boosted their win rate by an average of 32%.
- We are so confident in the benefits of our program we will even review your next proposal ABSOLUTELY FREE. We guarantee a quick turn around so you'll be able to implement any suggestions before you submit your proposal to that future client.

We have almost 30 years of success stories. But, don't take our word for it...

"The new proposal template helped us win 5 new web design projects. We would not have gotten those projects otherwise. The coaching program was the best money I ever spent."
